**LEVEL THREE****LIVING TRUST PLUS™ ASSET PROTECTION PLAN**

For Families Who . . .

Are interested in general asset protection and/or Medicaid asset protection and currently have no significant health problems or physical limitations that are likely to lead to nursing home care within the next few years.

Level 3 Planning is for clients who want the assurance and peace of mind of knowing that their family wealth will be protected during their own lifetimes from lawsuits and from the catastrophic expenses of nursing home care, that these protected assets may be used to enhance their dignity and quality of life when nursing home care becomes an unfortunate reality, and that what remains of these protected assets will be transferred to their loved ones with the utmost ease and convenience possible, without court involvement.

Your Living Trust Plus™ Asset Protection Plan will also be designed to protect each beneficiary's inheritance from lawsuits, divorce, nursing home expenses, and estate taxes. Your Living Trust Plus™ Asset Protection Plan includes all the important features found in our Revocable Living Trust, including: Estate Tax Avoidance and Asset Protection Provisions upon the death of the first spouse; a Contingent Trust for Under-Age Beneficiaries; a Contingent Special Needs Trust for Disabled Beneficiaries to preserve entitlements and protect assets; and an optional Contingent Pet Trust if you own a pet.

**YOUR LIVING TRUST PLUS™ PLAN . . .**

Is an Estate Plan and Asset Protection Plan that includes everything in our regular Living Trust Plan but uses the **Living Trust Plus™ Asset Protection Trust** -- created by attorney Evan Farr and used by asset protection and elder law attorneys around the country -- as the central planning document, instead of the Revocable Living Trust.

Whereas the Revocable Living Trust will protect your assets from probate, the **Living Trust Plus™ Asset Protection Trust** is designed to protect your assets from probate **PLUS** lifetime creditors **PLUS** nursing home expenses.

Except for deeds to real estate, which we will handle at an additional cost of \$450 per deed, all asset transfers will be handled by you, with detailed guidance, instructions, and support from us. Alternatively, you may add our Total Trust Funding™ Service for \$450 per account.

If you have significant wealth inside one or more qualified retirement plans, one or more additional Designated Beneficiary Trusts may be added to protect the stretch-out over the lifetime of each beneficiary.

The initial fee includes free introductory enrollment in our Lifetime Protection Program™; after the first year, an optional annual fee (\$1,200 Single; \$1,800 Couple) provides ongoing lifetime protection, including unlimited consultations between you and our firm as necessary to continue to carry out your Asset Protection Plan. As part of the annual fee, we will: modify your documents as often as necessary due to changes in the law, changes in your family or financial circumstances, changes of address, or changes in your wishes; after five years, if it becomes necessary, we will assist you with selection of appropriate long-term care facilities, review admission documents, and complete and file all documents required for Medicaid, both initially and annually.

**LEVEL FOUR****LIFECARE AND MEDICAID ASSET PROTECTION PLAN**

For Families Who . . .

Have a loved one who is already in a nursing home, about to go into a nursing home, or has significant health problems and/or physical limitations that are likely to lead to nursing home care within the next few years.

Level 4 Planning is not based on preparation of specific documents; instead, it's based on providing you with solutions. Although many documents will be prepared as part of this level of planning, for a single or widowed client the goal of this planning level is to maintain the highest possible degree of personal dignity for the remainder of the client's lifetime, in part by protecting the greatest amount of assets in the shortest amount of time possible. Protected assets can be used to purchase goods and services not covered by Medicaid: goods such as dental work, hearing aids, vision aids, and personal items; services such as a private aide to provide a higher degree of care. For a married couple, the most important goal of this planning level is to ensure that the spouse who remains at home is able to live the remaining years of his or her life in utmost dignity and does not have to suffer a drastic reduction in his or her standard of living. Some clients also have a desire to leave a modest inheritance for their children, particularly if they have a disabled child or someone who needs special financial help.

**YOUR ASSET PROTECTION PLAN . . .**

Provides comprehensive Life Care Planning and Medicaid Asset Protection Planning, including completion and filing of the Medicaid application and all documents and actions required to obtain Medicaid. If applicable, Level 4 includes Veterans Benefits Planning and the filing of a Veterans Pension application at no charge.

Your financial investment in our services also includes: preparation of a written Asset Protection Plan (APP); preparation of all appropriate asset protection documents; all research, conferences, telephone calls, email, etc.; supervised execution of all documents required under the APP; unlimited consultations between you and our attorneys and staff as necessary to design and implement the APP consistent with your needs, goals, and desires, and to carry out the APP to completion prior to our filing for Medicaid and/or Veterans Pension benefits.

Under Level 4, we will also assist you with selection of appropriate long-term care facilities and review of all admission documents and contracts.

How much we are able to protect through Level 4 Planning varies from client to client and depends on your specific situation. However, for a single or widowed client, we can typically protect between 40% and 70% of your assets. For a married couple, we can typically protect 100% of your assets.

Your initial investment for Level 4 Planning is three percent of your total assets, subject to the minimum fees listed below, and includes free introductory enrollment in our Lifetime Protection Program™; after the first year, the annual fee (\$1,200 Single; \$1,800 Couple) provides ongoing lifetime protection, including annual re-filings and unlimited consultations between you and our firm as necessary to continue to carry out your Asset Protection Plan.
